

Digital Presentation

Digital Presentation is a 10-minute speech on any topic and is written, memorized and presented by the competitor. Digital Presentation may include visual support from a device. PowerPoint, Prezi, Google Slides or other presentation software may be used to create the visual portion of the speech. Visual support should begin with an opening slide and end with a blank slide and should include 5 or more slides total.

Digital Presentation Rules

1. All general speech rules must be followed, including:
 - Competitors are responsible for their timers in the competition room. Before speaking, the competitor will show a timer set to zero. The head judge will acknowledge that the timer is set properly. Then the competitor will start the timer when they begin speaking and stop it when they finish. The timer should be placed within view of the speaker.
 - Only feet may touch the floor when a speech is presented.
 - Presentation of any material related to the speech, whether verbal or non-verbal, before the timer is activated or after the timer is stopped is called a pre-show and will not be allowed. Competitors may give a brief introduction of their name and the speech type being performed as well as any other discussion necessary to confirm that judges are ready.
 - Audience participation is not allowed. Competitors may not request interaction from the judges or the spectators in the room. Audience members may not prompt the speaker.
 - No vulgarity will be permitted, including profanity, crude gestures, and other inappropriate content.
2. Competitors may speak for up to 10 minutes. There are 15 seconds of grace time. Competitors who go over the 15 seconds of grace time will receive time penalties.
3. A competitor may directly quote a maximum of 350 words total in the speech. Directly quoted words may be sprinkled throughout the speech as long as they are verbally attributed and cited properly.
4. Images used in visual support must be credited on the slide.
